

TAKE YOUR MEDICINE.

When your doctor writes you a prescription and you go to get it filled, you may not be able to tell what the prescription calls for. You will naturally go to a druggist that you believe in, for if you go to a careless place and get a few grains of strychnine in place of quinine, "you won't want your money back."

Be as particular about your fire insurance writer. Come to an agency that has the Reputation of giving a man GOOD INSURANCE whether he knows it or not, and you'll be sure of getting "your money back."

OATS

When a farmer sows his oats one day he don't expect to go out and harvest his crop the next. When a farmer's son goes to the city and sows his wild oats, he don't often raise a full crop the next minute. It often happens in the case of the farmer's oats or his son's oats that the farmer has to raise money on his expected crop, and has to make a "note" of it.

It takes time to get results from anything, and the better the sowing is done the better the harvest be. We've been sowing seed for the past three years. We've sown GOOD seed on GOOD ground. We've sown good seed by writing fire insurance policies signed by the presidents of America's and England's strongest companies. Let us write your next policy

J. W. Farmer, who about six months ago shot Alexander and James Kasey on Lincolnshire Branch, four miles northeast of Tazewell, came to town last Thursday and surrendered. He gave bail and is now at work with the steam shovel force on the Peery place. The cause of the shooting was trouble about Farmer's wife.

Colonel J. S. Browning, of Poachontas, appeared before the proper Legislative Committee on last Friday night and made a speech against the child labor bills that have been introduced in the Legislature. Major H. Every one who has a garden or farm should write to T. W. Wood & Sons, Richmond, Va., for their Seed Book for 1903. It is beautifully gotten up and well printed, and is really a complete handbook of information, both for the garden and farm. It is peculiarly valuable to our southern growers, as it gives practical information about the seeds best adapted to our own section.

The case of the Commonwealth vs. Rosa Dean is set for hearing in the county court today. She is indicted upon a charge of killing Walter Turner at Poachontas several months past. The case of the Commonwealth vs. James Thomas and Charles Bailey is fixed for hearing next Monday. They are charged with entering a barn in the night time and stealing therefrom a lot of harness.

A very important bill offered by Senator J. N. Harman has been unanimously reported by the Senate Committee for Courts of Justice. The bill allows persons having lost control of themselves from the use of alcoholic liquors or drugs to be taken before a justice of the peace and upon motion of two friends, upon conviction, to be committed to a private institution to be treated. This is a very important measure, and one that is calculated to attract much favorable attention.

The trouble the Tazewell Telephone Exchange raised with certain of its subscribers seems likely to result in the establishment of another exchange in the town. Steps have been taken for its organization and for putting it into operation as speedily as possible. A meeting was held at the office of Mr. A. S. Higginbotham on last Friday night and an organization effected. A committee of ways and means was appointed with ample powers to push the work to completion. Another meeting was held on last Monday when the committee reported the progress made on the lines laid down. It looks like the new exchange will be able to start off with the assurance of having about one hundred "phones in connection with the "central."

MARTYD PRESIDENT HONORED.

Roosevelt Delivered Principal Address of the Evening.

Canton, O., Jan. 27.—Men prominent in public life and representing all sections of the country today gathered in this, the home town of William McKinley, to do honor to the memory of the martyred President. The occasion was a banquet of the Canton Republican League in commemoration of the sixtieth anniversary of McKinley's birth. Chicago, January 27.—A mob of nearly 500 men, women and boys held up a Chicago and Northwestern coal train and carried away the contents of five cars before they were dispersed by the police. Women led the attack, uncoupling the cars in a number of places and intimidating the train crew. For hours traffic was suspended while the mob increased to more than a thousand persons. A riot call was turned in and order finally restored.

LETTERS FROM HEAVEN.

Strange Communications of an Indianapolis Crank to the National Treasury Department.

For five or six years the treasury department has periodically received a letter or epistle from an Indianapolis man who signs himself "United States in Heaven," and who dates his epistles "Heaven." The latest of these communications is in line with all the others, and although brief is interesting, as showing the class of matter which sometimes reaches the executive departments. This one is dated "Heaven, 32, 9, 15," and is as follows: "I do not care to set up my opinion in controversy with the others of the American bar, but I have opposed the Panama canal because I think it unwise, because the French company has a doubtful title." It is signed "United States in Heaven."

The communications from this correspondent are promptly transferred to the waste basket, and from there are carried out by the charwomen who clean up the treasury department. No answer is sent to this alleged "heavenly" correspondent. In some of the departments the heads are so exceedingly courteous in their treatment of correspondents that they might be disposed to insist upon an answer to communications of this kind, but this is not so in the treasury department.

At the white house, says the Washington Star, unless it is seen absolutely at a person in a crazy, his or her communication is always responded to in the most courteous manner.

THE ACTORS OF CHINA.

Theirs is a Profession Which Once Adopted is Vital to Those Who Follow It.

Actors in China are usually very well paid, but likewise are much despised. No actor or son of an actor can compete at the public examinations for the literary degree which is the doorway to public office, and consequently the actor's profession when once adopted, is vital to those who follow it, says the Brooklyn Eagle. Once an English doctor called to attend a young actor whose leg was in a bad condition from careless treatment. The foot had been cut off as the result of an injury caused by a fall on the stage. Fifth and negligence had done the rest and there was very little chance of the man's recovery, still the doctor felt that he should take that chance and therefore took off the man's leg. To the surprise of the doctor his leg healed at once, and in a few weeks the actor was again ready to go on the stage. The doctor fitted him with an artificial leg, and his good fortune began. He at

SNUG LITTLE FRENCH INNS.

Charming Old Hostelrys Which Have Been Greatly Helped by the Automobile.

"This talk about the decadence of those delightful French and English inns is all nonsense," said a man who recently returned from a European trip. "The advent of the automobile was a godsend to them, and their patronage has been greatly increased since people took to riding along those beautiful roads instead of whizzing along on dirty, sooty trains."

"And what charming old places those hotels are! Their immaculate antique furnishings, monsieur with his cheery smile, the black-eyed waiting maid, the awkward chore boy; there is a delightful quaintness about the place not to be found elsewhere. And after the evening meal what a pleasure it is to sit on one of those cozy porches overlooking the queer little town nestled at the foot of the great chateau."

"Others may pat their time abroad in the palatial hotels to be found in the great cities," said the traveler, according to the New York Tribune, "but as for me, give me one of the snug little inns hidden away in the interior of France."
